Resource classroom

Resource classroom integrates educational resources within the school to help students of special needs integrate into a large learning environment. We also provide consultation to staff and faculty in order to reduce the constraints caused by the obstacles. We also bridge the gap in between of the students and the school. Our primary goal is to facilitate students succeed in the least limited environment and to maximize their potential. We are pleased to provide special education resources, classification and counseling services to teachers, should your students encounter a special situation.
